22"x36" Triple Pane - Black Nickel

PEMBRIDGE

22"x36" Triple Pane - Black Nickel

WELLESLEY

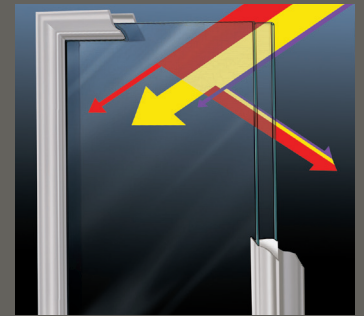

22"x36" Triple Pane - Black Nickel

## Low-E Doorglass - How does it work?

Low-E coatings reduce the amount of infrared light (causes heat build up) and ultra-violet light (causes color fading) passing through the window panes while allowing visible light to pass through with minimal resistance. This works from the exterior to the interior surfaces and the interior to the exterior surfaces; meaning it will keep the heat out of your home in the summer and inside your home in the winter.

### LOW-E

22"x36" Dual Pane - Low-E

### VENTED & SCREENED

22"x36" Dual Pane - Clear

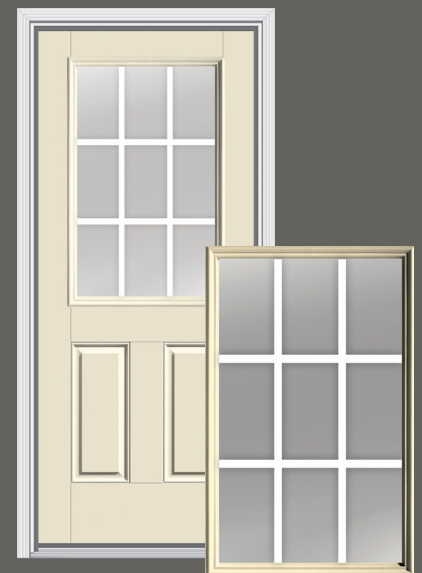

### INTERNAL BLINDS

Raise, Lower & Tilt

and decorating need.*

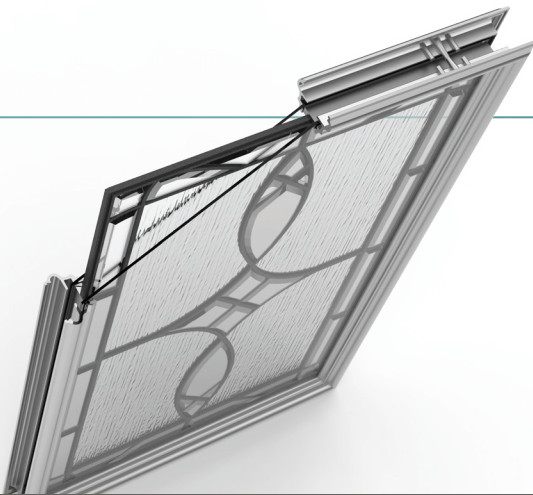

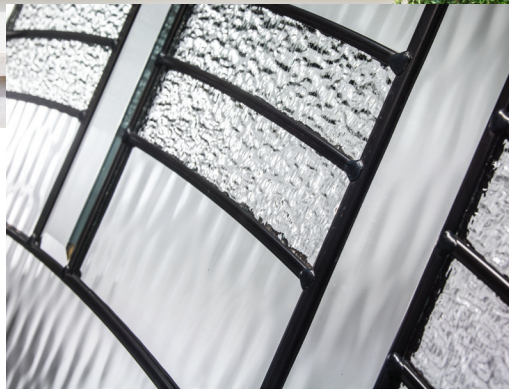

## Decorative Glass

The Alliance Door Products system with decorative glass can create an entrance that makes a statement — one that says you have high standards for style, quality and craftsmanship.

Our wide array of glass designs, are available installed into a prehung door system or separate, ready to install into your door. Our glass designs range from simple to intricate, reflecting the home design trends and homeowner desires of today and tomorrow.

## Triple-Pane Construction

Our triple-pane decorative, glass panels feature Low-E and are enclosed between tempered glass, offering superior quality and thermal performance.
