ALLIANCE DOOR PRODUCTS is a privately held, family-owned company with full-service distribution centers across the U.S. and Canada.

Our vision is to build a relationship-focused organization that seamlessly connects customer needs with supplier solutions through a network of market-leading companies specializing in door and millwork solutions.

We proudly offer a comprehensive selection of high-quality residential, commercial, and architectural interior and exterior doors, along with related door and millwork products. Our offerings are supported by outstanding customer service and value-added services, including pre-hanging and custom machining.

Our extensive product portfolio features trusted brands such as Lynden Door, Plastpro, Simpson Door, Goldberg, and Assa Abloy.

ALLIANCE DOOR SYSTEMS fiberglass and steel doors provide a wide range of beautiful exterior designs to suit any architectural style, climate, and budget. These low-maintenance, worry-free doors and systems are engineered to meet or exceed industry performance standards.

With our diverse product offerings, broad range of value-added services, and a strong commitment to responsiveness, we are your ideal partner for any building project.

**All products featured in this brochure are currently in stock.** For other sizes or additional options, please contact your local representative.

[AllianceDoorProducts.com](http://AllianceDoorProducts.com)

Our high quality doors and stunning glass designs offer you solutions for all your building needs. Let the beauty and exceptional performance of the Alliance Door System inspire you.

Architectural design, placement, environment and exposure each present a different set of challenges. Tailored to your needs, our door systems allow you to address these challenges by choosing from a wide variety of quality high-performance system components. Custom machined components make installation at the job site quick and worry-free.

Please ask your Alliance Door Products representative about additional system component options and our **PROGUARD** packaging to help protect the door at your building site from dings and dents during the construction process.

**1 GLASS BY ODL®**

The quality of ODL doorglass, two panels of tempered safety glass insulated for air and water-tight performance, makes it the perfect choice for your Alliance Door System.

**2 ENDURA Z-ARTICULATING CAP SILL™ & SWEEP\***

Automatically adjusts, saving time, eliminating maintenance needs and service calls. Endura door bottoms utilize a combination of fins and bulbs for proven, unmatched protection against leaks and a larger sealing area.

**3 SIMPLE SOLUTION™ CORNER PAD**

Thicker design with dual sealing lobes delivers increased contact with the panel and corner pad, providing consistent compression and improved sealing power.

**4 ENDURA FRAMESAVER®\***

FrameSaver is backed by the industry's only fully-transferable lifetime limited warranty for performance you can count on now and in the years to come.

**DURA-TECH FX50 FRAMES®\*- BLACK**

Resists Heat Buildup. Resists Color Fading. Acrylic exterior film for superior UV and heat resistance. **GUARANTEED** against ground rot, decay, and insect damage. (Jamb widths available: 4-9/16" and 6-9/16".)

**5 ENDURA TRILENNIUM MULTI-POINT HARDWARE\***

Solid, one piece I-beam runs the full length of the lock, actually strengthens the door edge, and prevents door warping over the life of the panel. Trilennium is among the strongest and most secure hardware systems in the industry. (Exceeds Grade 30 – or 300 ft-lbs x 2 of impact, per ASTM E 2395.)

**6 COMMERCIAL-GRADE BALL BEARING HINGES\***

Variety of colors and finishes to match door hardware.

**7 2-3/4" DOOR INSTALLATION SCREWS**

Extra long installation screws provided standard with each exterior door system.

**8 STEEL SECURITY DOOR SHIELDS**

Steel reinforcement plate protects and secures.

\* Optional Component

**PATENTED HYDROSHIELD™ TECHNOLOGY**

The HydroShield Technology by Plastpro protects our Fiberglass doors against moisture and humidity infiltration by creating a fully composite barrier that encases and protects the door on all six sides.

**Backed by Industry Leading Warranty.** We are proud to offer one of the best warranties in the industry. Plastpro products are held to high standards. We stand behind our products and guarantee the best quality to meet your performance expectations.

For more information visit [plastproinc.com/resources/warranty](http://plastproinc.com/resources/warranty)

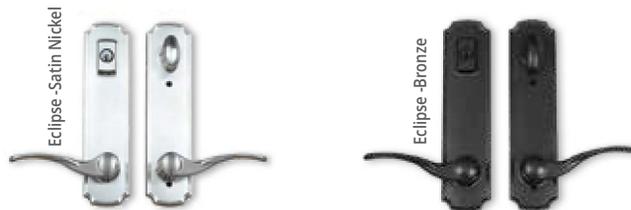

- 1 FIBERGLASS REINFORCED DOOR SKINS**  
Our exclusive formula is measured precisely to ensure each skin is produced to the highest quality. The skins require little maintenance and will not splinter, dent, warp, rot or rust. They can be painted or stained.
- 2 FULL LENGTH COMPOSITE STILES**  
Our full-length composite stiles protect the door from external moisture to prevent warping or rotting. They have twice the screw-holding strength of wood.
- 3 COMPOSITE TOP & BOTTOM RAILS**  
High strength composite top and bottom rails prevent moisture from seeping into the door and stop the buildup of mold.
- 4 EXTENDED LOCKBLOCK**  
Plastpro's full length Laminated Veneer Lumber (LVL) lock stile allows any type of lock to be placed for increased security. Our 8'0" doors have a steel bar in addition to the LVL to help increase the structure's rigidity.
- 5 POLYURETHANE FOAM CORE**  
Our advanced CFC-free, high density, Polyurethane foam core enhances the door's soundproofing capabilities and provides insulation up to six times greater than wood doors.

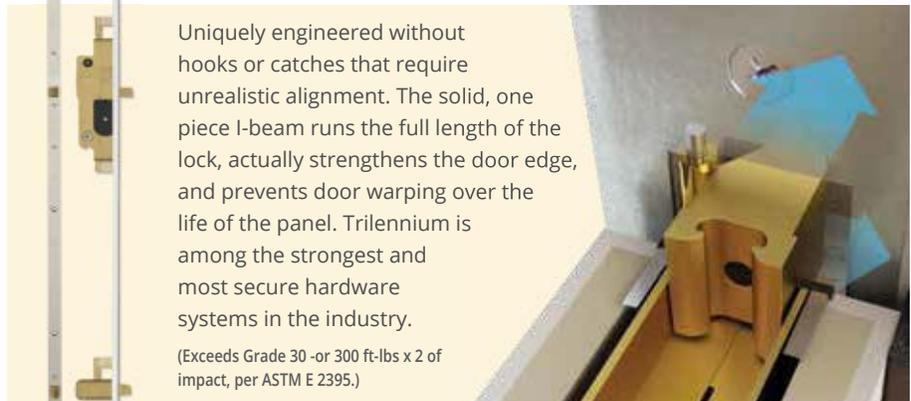

**TRILENNIUM MULTI-POINT LOCKING SYSTEM**

For a homeowner, the front door is an important investment to the larger investment of your home. For such a significant element, you need beauty, security, strength and peace of mind it will work for years to come. Trilennium's patented system of bolts and roller strikes draws the door back into perfect alignment, correcting imperfections up to 3/16" in three directions.

US Patents: 7,753,418; 8,182,002; Canadian Patents: 2,562,430; 2,605,002.

Satin Nickel and Bronze Eclipse lever style handle sets are in-stock. Additional handle set designs are available special order.

Uniquely engineered without hooks or catches that require unrealistic alignment. The solid, one piece I-beam runs the full length of the lock, actually strengthens the door edge, and prevents door warping over the life of the panel. Trilennium is among the strongest and most secure hardware systems in the industry.

(Exceeds Grade 30 -or- 300 ft-lbs x 2 of impact, per ASTM E 2395.)

SECURITY. PERFORMANCE. STANDARD.

## PANOLOCK+ MULTI-POINT LOCK

Use of multi-point locks has been limited, primarily due to high cost, difficult installation and operation, and the limitations of dedicated handleset hardware that are required for each manufacturer's lock offering.

PanoLock+ works with off-the-shelf hardware. **Kwikset, Emtek, Schlage, Gatehouse, Brinks, Defiant\* and more.** PanoLock+ integrates with many brands and a variety of locksets through an innovative system of adapters.\*

\* Please refer to our website to verify that your preferred locksets have been tested for compatibility with PanoLock+. <https://www.enduraproducts.com/pano-lock-plus/>

### EASY TO LIVE WITH.

A simple turn of the deadbolt operates both tapered bolts smoothly and the handleset operates the handleset latch. Three points of secure contact. PanoLock+ is easy to live with, even after years of use.

### EASY TO WORK WITH.

PanoLock+ is flexible. Handing and swing can be set any time, in the shop or on the job site.

- No dedicated hardware required.
- No difficult installation.

### SECURE PERFORMANCE.

PanoLock+ delivers the strength of three locking points for uncompromised protection. No weak hooks or catches. Just tested, proven strength.

- DP75 Rated.

Works with a variety of STANDARD HARDWARE, including ELECTRONIC DEADBOLTS.

Thumb press, lever or knob. Even electronic deadbolts.

PanoLock+ works with a variety of off-the shelf hardware and many lock brands.

*Matching hardware throughout the house is now a possibility.*

In-stock finishes: Bronze Anodized and Brushed Clear Anodized

*PanoLock+ is the multi-point lock you've been waiting for. Scan for more information.*

## DOORGLASS

At Alliance Door Products, we know doorglass makes the door which is why we chose to partner with a doorglass expert to bring you stunning, high performing doorglass.

ODL's expertise is evident in the quality of handcrafted glass, cut and shaped in a range of styles to match the diversity of homeowners' design preferences in the Pacific Northwest and across the country.

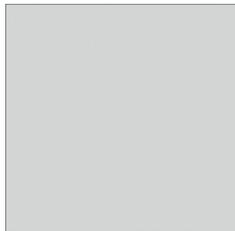

The quality of the doorglass construction, two panels of tempered safety glass insulated for air and water-tight performance, makes it the perfect choice for your Alliance Door System.

## PERSPECTIVES – PRIVACY GLASS TEXTURES

A view. A viewpoint. A city skyline. An attraction to cultural artifacts. A swirl of clouds. A cosmopolitan sensibility. A colorful marketplace. An appreciation for tradition and trends. The front door of your home. A perspective of what lies beyond.

ODL considered views and viewpoints from around the world as they designed the Perspectives line.

Textures, colors, patterns, terrain, objects, cultural influences—all led to this diverse collection of privacy glass styles for your entry door. The texture of handcrafted glass adds depth, dimension and contrast to decorative glass designs. This contributes to the light and privacy levels of our doorglass.

## LIGHT & PRIVACY LEVELS FOR DECORATIVE GLASS

Decorative doorglass designs feature a variety of textures and glass types, each offering different levels of light transmission and privacy.

To help you choose, every design is rated for privacy—None, Low, Medium, High, or Maximum. Refer to pages 9–11 for these ratings. For more natural light, select a lower-rated glass. For more privacy, choose a higher-rated option.

## REFRAMING INNOVATION AND DESIGN

We explore design trends, listen to customer needs and expectations, and use our long history of innovation to bring you the most versatile doorglass frame ever.

Available with select glass designs and sizes.

*Meet ZEEL - A minimal design with endless opportunities.*

ZEEL is a sleek, versatile frame designed to be stained or painted that blends seamlessly into the entry door, allowing the doorglass to take center stage. This **clean, low-profile look** offers an alternative to flush glazed doors that provides the benefits of a frame system with the style homeowners desire.

Traditional frames can warp when subject to severe temperature changes or direct sunlight exposure, especially when painted dark colors. **FiberMate Plus™** is our **strongest material yet** and exceeds performance expectations in extreme environments.

**Resolve® sealant** is immune to squeeze out and doesn't degrade over time, reducing service calls and warranty issues. This clean thermoset foam seal can be repositioned and stays consistent over time.

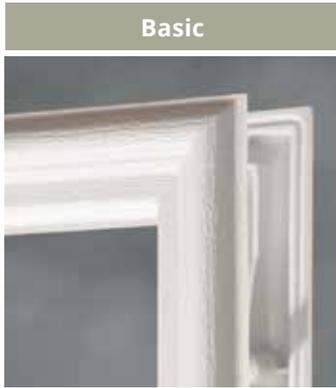

**ZEEL eliminates the need for screws** and cumbersome screw hole covers with an innovative clip system. This allows each frame to sit flush, streamlining installation and greatly reducing installation time and effort. This efficient installation offers an alternative to costly flush glazed doors.

**Go to [ZEEL.odl.com](http://ZEEL.odl.com) to learn more**

## DOORGLASS FRAMES

The Evolve Performance glass frame comes standard with most of our glass designs. For an authentic architectural look, our Craftsman door designs feature the Craftsman frame. The Bauhaus collection uses the Spotlights frame.

**BLANCA | Craftsman Style**

Offering a high level of privacy and an understated backdrop, Blanca has a frosted, slightly stippled surface. Crafted with *Silkscreened Glass*. Blanca offers *Maximum privacy*. Available in Craftsman, Full View, 3/4-Lite and Half View.

**COURTYARD | Craftsman Style**

Wrought iron designs are timeless. The pronounced fretwork of Courtyard creates a look that is both strong and subtle. Courtyard offers a high privacy level. Crafted with *Granite Glass* and *Nickel Vein Wrought Iron Caming*. Courtyard offers *Maximum privacy*. Available in Craftsman.

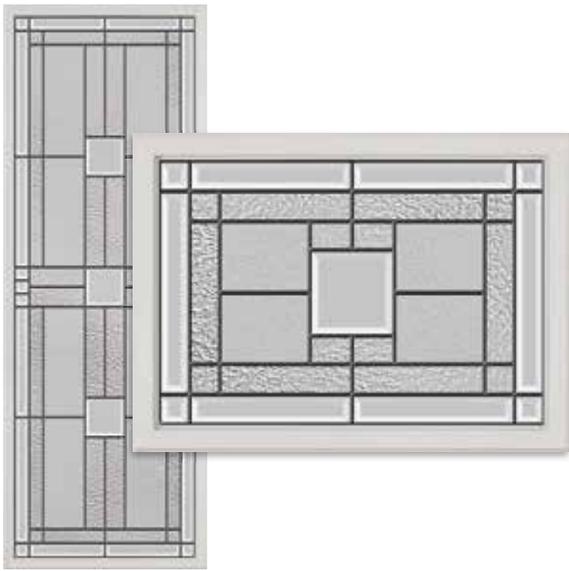

**CROSSWALK | Contemporary & Craftsman Style**

Modern design comes to life through strong linear lines interrupted by bold pops of gray glass. Crosswalk's look is abstract, modern, and stylish. Crafted with *Micro-Iced Granite Glass*, *Gray Softwave Glass*, *Clear Softwave Glass* and *Platinum Nickel Caming*. Crosswalk offers *High privacy*. Available in Craftsman, Full View, 3/4-Lite and Half View.

**GRACE | Traditional Style**

Accent your front door with the graceful styling of a bevel cluster. The Classic look of Grace includes a backdrop of glass textures and a platinum nickel or patina finish. Crafted with *Micro-Cubed Glass*, *Granite Glass*, *Micro-Granite Glass*, *Clear Bevels* and *Platinum Nickel Caming*. Grace offers a *High privacy*. Available in Full View and Half View.

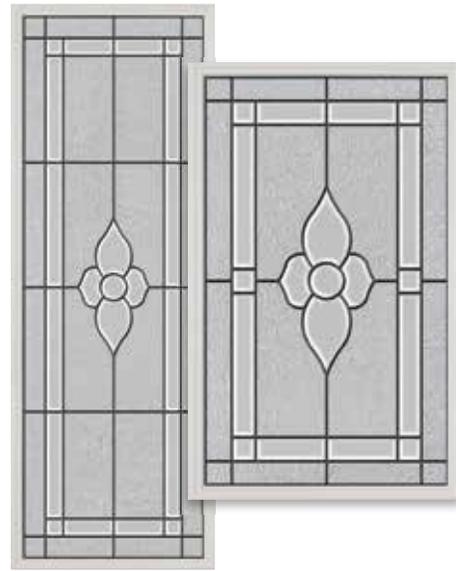

**MONTEREY | Craftsman Style**

Monterey offers Craftsman design elements and a bit of modern style to your home's entrance. Clear bevels provide visibility, yet the translucent, textured glass offers a high privacy level. Patina and satin nickel give you finish options to complement your door hardware.

Crafted with **Clear Bevels**, **Micro-Granite Glass**, **Granite Glass** and **Satin Nickel or Patina** Caming.

Monterey offers **High privacy**.

Available in Craftsman, Full View, 3/4-Lite and Half View.

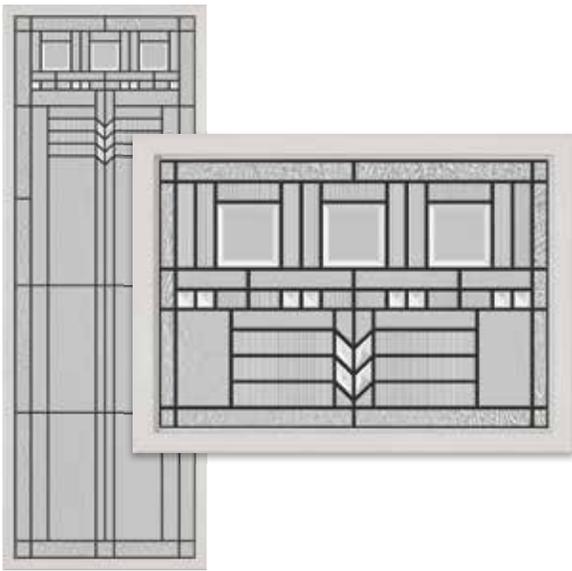

**NOUVEAU | Traditional Style**

Nouveau places a brilliant bevel cluster at its center and frames it with a classic translucent beveled glass design. Crafted with **Clear Bevels**, **Glue Chip Glass** and **Platinum Nickel** Caming.

Nouveau offers **Low privacy**.

Available in Full View, 3/4-Lite and Half View.

**OAK PARK | Craftsman Style**

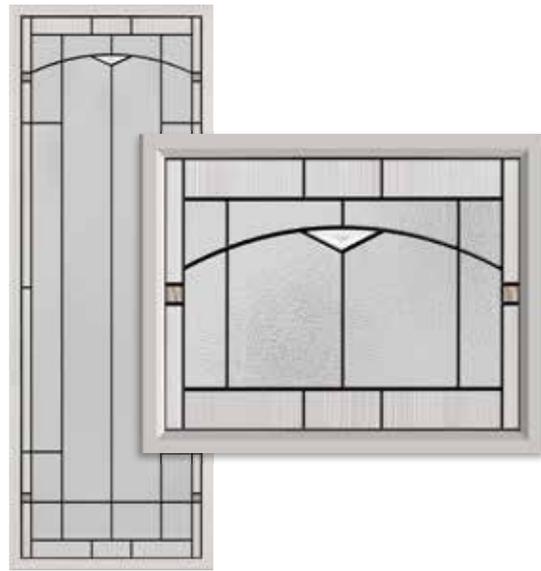

When you think Craftsman style, you're thinking Oak Park. A patina finish and handcrafted, textured glass create a striking geometric pattern reminiscent of Arts and Crafts design.

Crafted with *Crinkle Glass, Thin Reed Glass, Clear Bevels, Clear Seedy Glass* and *Patina* Caming.

Oak Park offers *Low privacy*.

Available in Craftsman, Full View, 3/4-Lite, and Half View.

\* Pictured Below

**TOPAZ | Craftsman Style**

If you appreciate attention to detail, you'll like Topaz's subtle pops of color, focal bevel cluster, and patina finish. These "jewels" combine to create a Craftsman style doorglass that adds beauty to your home's entryway

Crafted with *Bronze Seedy Glass, Thin Reed Glass, Clear Bevels, Micro-Granite Glass* and *Patina* Caming.

Topaz offers a *Maximum privacy*.

Available in Craftsman, Full View, 3/4-Lite and Half View.

### VENTS

Use our vented designs for a boost of fresh air in workshops, garages or your home. They feature a sliding bottom sash with a 10 station locking system which allows you to control the airflow. The external screen keeps insects out and is removable for easy cleaning.

- 10 station locking system
- Removable screen for easy cleaning
- 20-Year Warranty
- Available in White

### BLINK® ENCLOSED BLINDS

Whether you're looking to enjoy the outdoors or need to turn off the outside world, the perfect levels of light and privacy are yours to control.

Our superior **Easy Glide System** allows our blinds to tilt completely closed, keeping you safe from prying eyes and unwanted light. The full privacy channels eliminate light gaps, shadows, and sunlight glare.

- No dusting
- No dangling cords or swinging blinds
- Available in White
- Raise, Lower & Tilt

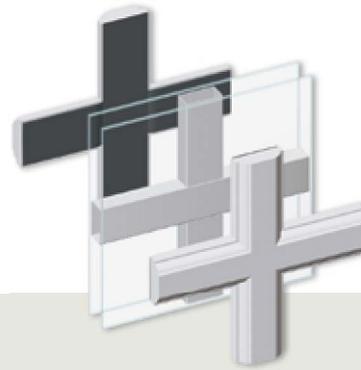

*See page 17 for more information.*

### SIMULATED DIVIDED LITES (SDL) AND GRILLES

A mill finish grille between glass with external grilles creates the allusion of divided panes and the wow-factor you desire for an entry door. Low-E doorglass provides improved energy efficiency without compromising the traditional look of divided lites.

- Low-E Glass
- 7/8" spacer bars
- Architecturally appropriate grille profile complements Craftsman door design

### ENERGY EFFICIENCY

Energy efficiency translates into energy savings and comfortable living. Metallic, Low-E coatings on one or more surfaces of the glass will reduce heat flow and help lower heating bills in the winter and air conditioning costs in the summer.

#### LOW-E DOORGLASS

Proven energy saver. Increased energy efficiency equals increased savings for homeowners.

#### REDUCES SOLAR HEAT GAIN

In cold weather, Low-E glass stays warm on the inside minimizing cold spots and convection currents.

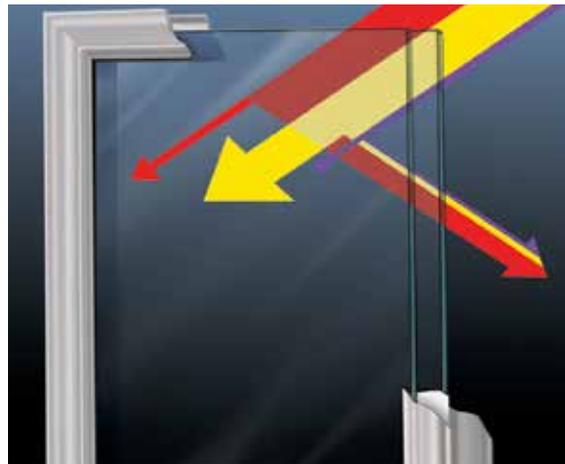

#### REDUCES CONDENSATION

Cold glass and warm, moist indoor air can cause damaging condensation. Low-E glass keeps glass warmer, reducing condensation.

#### REDUCES FABRIC FADING

Low-E glass protects fabrics, furniture and carpets from fading by blocking up to 61% of harmful ultra-violet rays.

#### LOW-E DOORGLASS - HOW DOES IT WORK?

Low-E coatings **reduce the amount of infra-red light** (causes heat build up) **and ultra-violet light** (causes color fading) passing through the window panes while allowing visible light to pass through with minimal resistance. This works from the exterior to the interior surfaces and the interior to the exterior surfaces; meaning it will **keep the heat out** of your home in the summer and inside your home in the winter.

*Cool in the Summer and cozy in the Winter.*

## BLINK® | ENCLOSED BLINDS

The levels of light and privacy in your home are yours to control using our **Easy Glide Operator** which slides along the **Ergo Track** using **Sure Connect Magnets**.

The ergonomically placed operator lets you raise, lower and tilt your blinds the entire length of the doorglass with only the slightest movement. No reaching or stooping is needed to adjust the blinds. An innovative design results in stacked blinds that take up the smallest of space at the top of the doorglass when fully opened.

Enclosed blinds mean no dust or dirt, no kinks or dents, and no banging of the blinds when you open and close your door. A cordless design is a safer solution when children or pets are in the house.

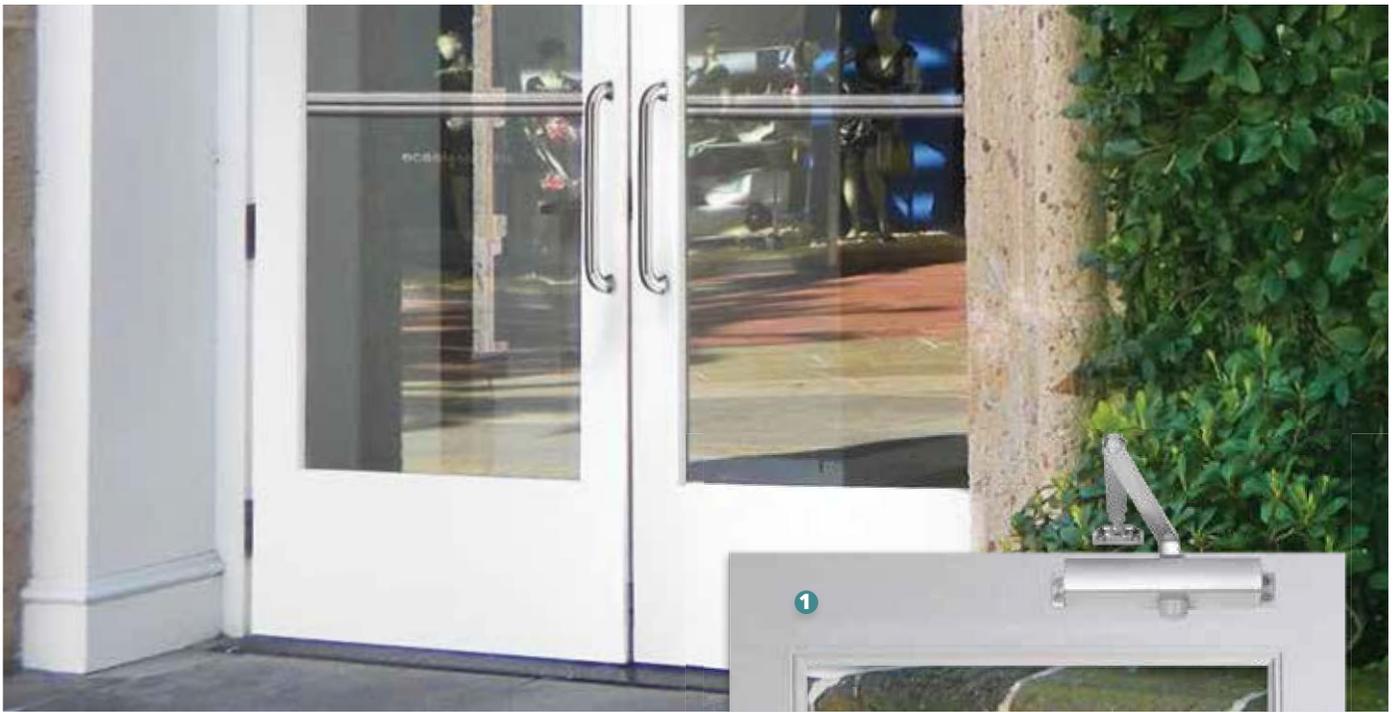

Blink Entry Doorglass carries a **20-year warranty** on blinds, glass seal and operator for a long-term performance in your exterior door.

- No cords; safe for children and pets
- No dusting
- Single reduced travel operator for raise, lower and tilt
- Privacy channels for complete privacy
- Energy efficient warm-edge spacer system

S686-FL-RLB-LE | Blink Enclosed Blinds

### FLUSH GLAZED | COMMERCIAL ADA

This Commercial ADA Fiberglass door combines a modern look with function and complies with ADA standards.

This Low-E door can accommodate ADA required hardware, including a closure and panic bar, for easy operation. The flush glazed construction allows field re-glazing and avoids the need to replace whole doors in case of accidental glass damage.

*Commercial ADA available in 6'8", 7'0" and 8'0" heights.*

#### FEATURES & BENEFITS

- 1 6.5" Top Rail – Accommodates regular and parallel arm closer
- 2 Reinforced Hinge & Lock Stiles – For Panic Bar hardware and Exit devices
- 3 5.5" Face Stiles – Accommodates all types of commercial hardware (including 2-3/4" backset 161 prep and mortise locks)
- 4 Low-E insulated glass
- 5 Compression molded Fiberglass skin
- 6 Flush glass stop
- 7 High density polyurethane foam
- 8 ADA compliant bottom rail
- 9 Composite bottom rail

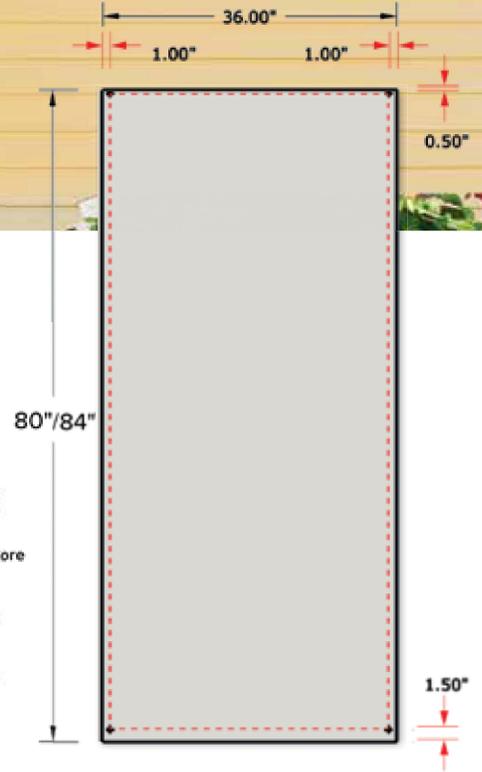

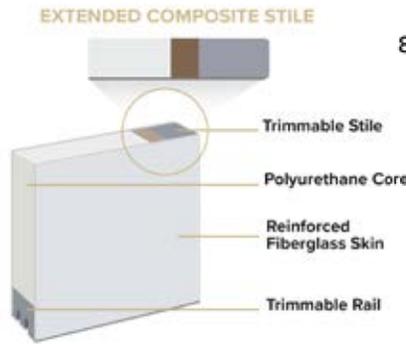

DRS11 | DRS1170 | DRS 1180 -Low-E

**SMOOTH SERIES | FIELD TRIMMABLE**

This door's unique construction allows for adjustments at the job site! The extended composite stiles and rails can be trimmed up to 2" in height and width without compromising the integrity of the door. The Field Trimmable Door is ideal for remodel and repair projects.

*Only available in 3'0" width and 6'8" and 7'0" heights.*

*Realize unlimited possibilities with our SDL bar offering.*

Direct Glazed **Low-E (LE)** doors are available with 1-1/8" SDL bars. The beautifully profiled SDL bar kits, match the ovolo panel construction to complete the look.

The simulated divided lites are the ideal choice for Modern Farmhouse, Craftsman, Contemporary and traditional building styles. All doors provide the low maintenance benefit of our Onyx series and feature a brushed surface and direct glazed glass.

**Please note**, the direct glazed insulated glass does not have internal spacer bars between the glass panes.

**PLEASE NOTE**, to help prevent solar heat gain, all black SDL bars are factory treated with a solar reflective finish. **Painting our black SDL bars will eliminate the effectiveness of the solar reflective finish.**

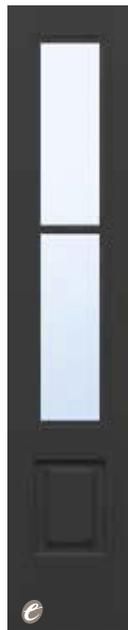

When painting white or black SDL bars in dark colors **a solar reflective paint to help reduce heat retention is required.**

For more information, please consult your local paint professional.

## DIRECT GLAZED | NOVA 90

The Nova 90 Fiberglass door series features glass that is directly glazed into the door to create a seamless blend between the glass and door. The large Low-E glass pane allows for the greatest views and amount of light into your home.

### Glass Options

Nova 90 is available with Low-E or Translucent glass. Translucent glass offers a high level of privacy.

Low-E

Translucent

## FEATURES & BENEFITS

- 1 Composite stile cap
- 2 Full length LVL (hinge & strike side, for extra rigidity)
- 3 Low-E insulated 1" glass
- 4 Compression molded Fiberglass skin
- 5 Brush finished texture can be painted or stained
- 6 Integrally molded glass stop with shaker sticking
- 7 High density polyurethane foam
- 8 ADA compliant bottom rail
- 9 Composite bottom rail

Available in 6'8", 7'0" and 8'0". See pages 20 & 21.

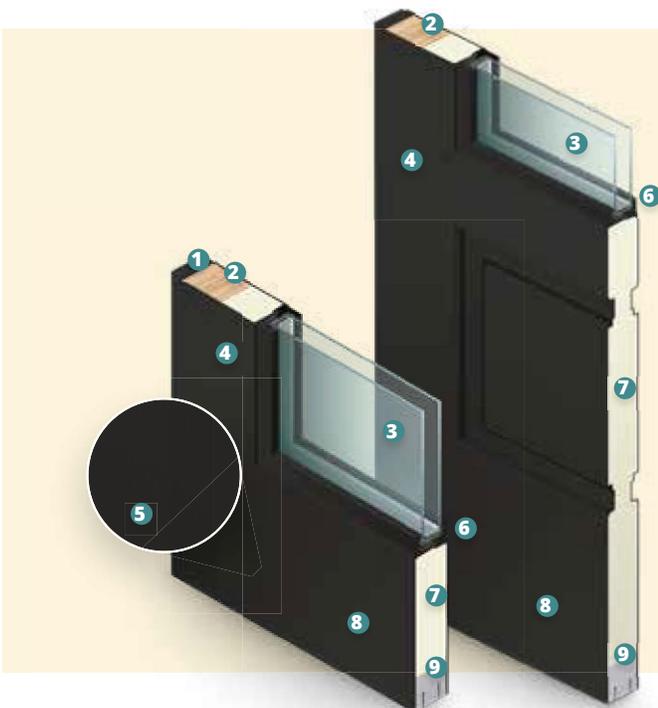

## ONYX | NOVA 90

Whether you prefer the charm of a Modern Farmhouse or elegant simplicity, our new Onyx Fiberglass doors are the ideal choice when you seek enduring beauty and breathtaking entryways.

These resilient onyx pigmented fiberglass doors provide you with the contemporary allure of a black door while eliminating the necessity for frequent upkeep or painting. Enhance the aesthetics and natural lighting of your home with our Nova series, featuring direct glazed glass that creates a seamless and elegant design.

Take a step further with our durable onyx pigmented fiberglass skin that gives you the contemporary look of a black door, but eliminates the need for frequent maintenance or painting.

## FEATURES & BENEFITS

- 1 Composite Stile Cap
- 2 Full Length LVL  
(Hinge & Strike side, for extra rigidity)
- 3 Direct glazed insulated 1" glass
- 4 Onyx compression molded fiberglass skin
- 5 Brush finish texture
- 6 Integrally molded glass stop

**SMOOTH SERIES  
DOOR COLLECTION**

Smooth Series Doors are manufactured with pre-pigmented white skins for a painted wood door look with the benefits of Fiberglass. The no dent, low-maintenance surface is ready for paint. Available in a wide variety of door styles and direct glazed designs, we have the right door for your project or home.

**MODERN BAUHAUS COLLECTION**

Spotlights gives you options that make it easier to meet your renovation and construction goals. Spotlights are true to the character of your home's modern aesthetics.

Five doorglass sizes and four glass options give you flexibility to create a unique look complementing the architecture of your home. Small and large glass sizes, horizontal and vertical shapes, number of lites, orientation and type of glass – plenty of options to create the exact style and privacy you desire for your door. If you don't see the design you are looking for, we can custom create it for you. Please contact your sales representative for more information.

**Rain (RN)**  
Rain features a vertical pattern and textured surface that creates the illusion of rain trickling down a window.

**Chinchilla (CH)**  
As touchable as its namesake, Chinchilla's fine lines and organic, fur-like texture creates a striking wave pattern when seen from afar.

**Frosted (FR)**  
Frosted glass blends privacy with natural light, something that will find itself at home in any architectural style.

**Clear (CL)**  
Clear glass stands the test of time when it comes to architectural styles and puts a focus on inside and outside views.

**MODERN FRAME PROFILE**

Rain, Chinchilla, Frosted and Clear door glass and an architecturally authentic modern frame profile create the minimalist aesthetic and functional attributes you want in your home.

All Smooth Fiberglass Door designs are available with **Rain**, **Chinchilla**, **Frosted** or **Clear** (shown) doorglass.

3'6" doors have 8-7/8" stiles with all 22" horizontal glass sizes.

Door glass placement is called out "Left", "Center" and "Right" when viewed from the exterior of the home.

**CRAFTSMAN STYLE**

Craftsman style door designs for traditional, contemporary and even modern architecture.

We offer three distinct door styles suitable for any design or building need. All doors come with Craftsman glass frames in either a smooth or an oakgrain surface matching the texture of the door surface.

The **Craftsman 3-Panel Oak** door can be stained or painted for a traditional wood door look. Also available in paintable smooth.

Our **Craftsman 2-Panel Smooth Series** door is the most versatile option. With **flat panels and square sticking – Direct Glazed Craftsman** doors and sidelites come with **ovolo sticking** – these doors are at home in any architectural style.

## 20-MINUTE FIRE RATED FIBERGLASS DOORS

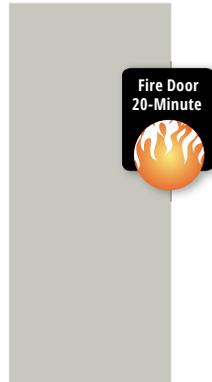

Made with fire-resistant composite, Plastpro's Fire Rated Fiberglass doors are extremely durable. The doors are tested and comply with safety and performance standards to withstand fire for a minimum of 20 minutes. Certain models are available to hold off fire for 60 and 90 minutes.

Please ask your Alliance Door Products Representative for more information.

## 20-MINUTE FIRE RATED STEEL DOORS - ADA COMPLIANT

Have security and peace of mind that your home and family are protected without compromising your design. Discover durability with the Taylor Door Edgewood Series. The composite bottom rail safeguards against rot and insects, ensuring low maintenance. With a 20-minute fire rating and white primer finish, these doors combine safety and style seamlessly. Other 20-minute fire rated door designs are available special order.
